FEATURES

- 100% natural sheepskin
- Adjustable wrist strap for a snug and comfortable fit.
- Full cow leather material, wear-resistant and durable.
- Breathable fabric lining keeps hands dry and comfortable.
- Touchscreen compatible, sensitive response, easy to operate electronic devices.
- Suitable for various outdoor activities, such as cycling, motorcycling, hiking, climbing, etc.

Softshell Tactical gloves

Thermal & water repellency

M2307

FEATURES

- Composite cotton or flannelette lining, strong thermal insulation
- Camouflage design, stealth protection—Wrist elastic design, fit heat preservation
- Buckle details, easy to carry and keep
- Suitable for autumn and winter

M2310

FEATURES

- Composite cotton or flannelette lining, strong thermal insulation
- Camouflage design, stealth protection—Wrist elastic design, fit heat preservation
- Buckle details, easy to carry and keep
- Suitable for autumn and winter

M2311

FEATURES

- Composite cotton or flannelette lining, strong thermal insulation
- Finger touch screen design, easy to operate electronic equipment
- Wrist elastic design, fit heat preservation
- Non-slip silicone palm, easy to grip
- Suitable for autumn and winter

Firefighting Glove

Heat-resistant & Flame retardant

M3920

FEATURES

- High-density waterproof and heat-insulating fabric on the back.
- Palm flame retardant cowhide suede anti-slip wear-resistant
- Florescent lime yellow with silver strip.
- Superior convective and radiant heat properties.
- Flame retardant coated KEVLAR® for increased abrasion resistance, contact heat resistance and improved grip.
- High Gloss Reflective Fabric

M3921

FEATURES

- High-density waterproof and heat-insulating fabric on the back.
- Palm flame retardant cowhide suede anti-slip wear-resistant
- Florescent lime yellow with silver strip.
- Superior convective and radiant heat properties.
- Flame retardant coated KEVLAR® for increased abrasion resistance, contact heat resistance and improved grip.
- High Gloss Reflective Fabric

M3922

FEATURES

- High-density waterproof and heat-insulating fabric on the back.
- Palm flame retardant cowhide suede anti-slip wear-resistant
- Florescent lime yellow with silver strip.
- Superior convective and radiant heat properties.
- Flame retardant coated KEVLAR® for increased abrasion resistance, contact heat resistance and improved grip.
- High Gloss Reflective Fabric

M3923

FEATURES

- High-density waterproof and heat-insulating fabric on the back.
- Palm flame retardant cowhide suede anti-slip wear-resistant
- Florescent lime yellow with silver strip.
- Superior convective and radiant heat properties.
- Flame retardant coated KEVLAR® for increased abrasion resistance, contact heat resistance and improved grip.
- High Gloss Reflective Fabric

M3924

FEATURES

- High-density waterproof and heat-insulating fabric on the back.
- Palm flame retardant cowhide suede anti-slip wear-resistant
- Florescent lime yellow with silver strip.
- Superior convective and radiant heat properties.
- Flame retardant coated KEVLAR® for increased abrasion resistance, contact heat resistance and improved grip.
- High Gloss Reflective Fabric

Ski Gloves

Thermal & water repellency

MA801

FEATURES

- Laminated wind barrier provides critical wind resistance.
- High quality waterproof zipper provides a secure fit with outerwear.
- Super soft fleece fabric inner layer, keep warm to help regulate your body temperature.
- Embossed leather on palm
- Layered palm construction reduces material clumping.
- Detachable spring clip keeps your gloves organized for easy storage.
